**List of supplies per surgery:**

Syringes

Gauze comes in sleeves of 200, 10 gauze squares/ surgery

Disposable drape there are 100 yards per roll as the material is doubled. We get 4 drapes per yard.

Gloves per surgery (sterile surgeons gloves for surgery)

Isoflourine gas- an average of 60 surgeries per bottle.

The cost is around \$.50 per surgery

Oxygen- \$28.00 per bottle, 1 bottle for four to five days of surgery at 40 surgeries per day (rough average)

Chlorhexidine scrub costs \$18.95 per gallon (should be mixed at one ounce per gallon of water)

Chlorhexidine 2% costs \$10.95 per gallon. It is to be used at the rate of 1 ounce per

gallon of water and is for spraying surfaces that must be disinfected.

Suture material costs \$38-\$40 for 12 pieces of monofilament. No suture is used on male cats. May be priced per reel of material and threaded onto a needle by the veterinarian.

Surgical blades are used at the rate of 1 per surgery

Sterilization pouches are 100 per box for \$13.75. Use one per surgery (plus some for sterile gauze, etc).

Distilled water for autoclave or sterilizer

Drug costs vary widely and will be determined by the veterinarian in conjunction with the clinic.

Cats:

Female average per cat (incl drugs) \$3.25 to \$4.75 per female

Male cats require drugs blade, gloves and cleaning agents \$2.00 to \$3.00 per male cat

Dogs: \$6.00 to \$10.00
